

Intensive Programme
International Finance

30 h

To whom this course is addressed:

The course is designed for those professionals and students who are not financial experts, but they would be interested in gaining knowledge and skills in the field of international finance.

The content of this programme may suit those interested in pursuing a professional career in international finances and international business environment.

Goals:

The main goal of this course is to provide students a solid understanding and deep knowledge of the fundamental concepts of international finance, including financial risk management and decision-making in a globalised environment and international business environment.

Competences to be acquired:

The participants of this 30-hour course will develop the ability to analyse financial risks, as well as manage them accurately in international environments, evaluate global projects and make strategic financial decisions.

Methodology:

- Classes are **face to face** in the Business School. You can also attend **in streaming**.
- Two days per week
- The lessons are dynamic and interactive.
- Our teachers are professionals very experienced in the field as well as teaching.
- The course is taught **in English** (by native English speakers)
- Ongoing assessment
